EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. S. Ference on 6/18/07.

The application has been amended as follows:

In the Claims:

Claim 15, line 1, claim status "Previously Presented" has been changed to -- Currently Amended--; and

Claim 20, line 1, "20" has been changed to --15--.

2. The following is an examiner's statement of reasons for allowance: Claims 15, 20, 21, 30, 35, 36, 38, 39, and 42 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach a system for embedding additionally information in MPEG video data, comprising means for detecting an intra-macroblock of a video frame; means for extracting data for a small domain; means for detecting a DC factor; means for determining whether the bit length of the DC factor will be unchanged; means for embedding; means for determining whether $\frac{1}{2}$ of the additional information can be embedded; and means for returning the small domain to the video data all together as claimed. The closest prior art, Nakamura

et al (6,185,312), discloses conventional method for embedding information, either singularly or in combination, fails to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. Lee whose telephone number is (571) 272-7334. The examiner can normally be reached on (571) 272-7334.
